## Arcabit - how to create and send a system audit

To create and send a system audit of the Arcabit program, use the following instructions:

1. run the Arcabit program and go to the "Tools" section::

2. select "System audit":

and click "Generate"

3. wait until it finishes:

Arcabit				0 _×
		uses base: 2025.03.	.03 07:15:21	License: 303 days
Tools				
<b></b>	盦		2	
Qu	The system report	SafoBrowsor	Backun	Process Pr
	The system repor	rt is being genera	ited, please wait	
System audit	Rescue Disk	System Cleaner	Windows Update	Online support
Q.	*			~
Encrypted drives	Password Manager	Package Manage	Administration Console	System Performance
	* Q U	* 💷	💆 🎤 🕄	

- 4. after the system audit generation is complete, a form for sending it will appear; fill in all three fields by entering:
  - your email address in the "contact e-mail" field
  - enter the subject in the "message subject" field (or leave the default)
  - briefly describe the problem in the "message/problem description"

message subject: System audit message / problem description:	
message / problem Problem description.	
files to send / attachments: Add file	
C:\ProgramData\Arcabit\logs\20250303\arcadump-20250303100354.zip	

and then select "Send files"
